DETAILED ACTION

Serial Number: 10/729254 Attorney's Docket #: YOR920030098US1

Filing Date: 12/5/2003;

Applicant: Edelstein et al.

Examiner: Alexander Williams

Applicant's election of Group I (claims 1 and 7 to 15), filed 11/28/05, has been acknowledged. However, Applicant's election still has a plurality of species. The previous restriction has been withdrawn. A further detailed restriction is listed for election below.

This application contains claims 26-42 drawn to an invention non-elected without traverse.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: Any one species in figures 2A-12C.

Species I, figures 2A and 4A-4K

Species II, figures 2B and 6A-6F

Species III, figure 2C and 8A-8E

Species IV, figure 2D and 10A-10E

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims

Art Unit: 2826

readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alexander O. Williams whose telephone number is (571) 272 1924. The examiner can normally be reached on M-F 6:30AM-7:00PM.
